Internship/Work Experience Opportunity

A charity called School Food Matters (<http://schoolfoodmatters.org/>) is looking for students to undertake work experience or internships over the summer. So if you are interested in cooking and growing activities with a really great charity, contact delia@schoolfoodmatters.org with a CV and covering email. Unfortunately, it's in East Sheen, so a fair amount of travelling to west London will be involved – don't apply if that puts you off.
