Road Safety

A member of the public rang today to report he almost knocked down two Woodhouse girls, crossing the road from behind a bus.

I know you think it won't happen, I know you think you are invulnerable, but hundreds of young people do get hit by cars every year, and it could be you next.

Do yourself a favour – use the zebra crossing.

John Rubinstein

L6 Enrichment

Attendance is compulsory, in exactly the same way as your other lessons.

Avoid making appointments when you have timetabled classes. If you have an enrichment class during lunchtime, you might need to plan to bring in something to eat at break time.

Chris Mann

Sports Hall and Weights Room This Week.

These will both be closed for recreational use until Thursday as PE staff are not able to supervise.

Timetabled enrichment classes will run as normal.

Safe Drive Stay Alive Road Safety Campaign

This is a live event with powerful testimonies designed to make the audience aware of the tragedy and suffering a road traffic crash can cause. It emphasises the five key causes: Speed, drink/drug driving, seatbelts, peer pressure and distractions.

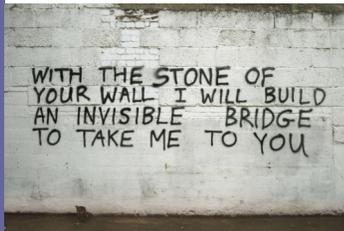

I am looking for 15-20 students to attend this event on Wednesday 21 October. Students who attend the event will then help the team at Safe Drive Stay Alive promote road safety at college.

Please email Kali Nicolaou to register your interest at knicolaou@woodhouse.ac.uk
