L6 Careers Interviews

All Woodhouse L6 students are entitled to see our full time careers advisor, Joanna Greatwich.

Joanna can give you guidance which is impartial - it's all about exploring what would suit you, and making the right decisions for yourself. During the interview she can help you compare and consider the different options based on your interests, skills, qualities and A level subjects, as well as your experiences and aspirations for the future.

Joanna is also an expert in the UCAS university applications process and can help with applications for apprenticeships and finding work experience or gap year opportunities. All initial sessions are 30 minutes long and can be booked using the [Careers Booking Calendar](#).
