Please Help!

I'm trying to raise money to go and support the action taken against the rapid decline of the Asian elephant population and their habitat in Chiang Mai Province, Thailand. GVI is the organisation I'm working with as their projects aim to provide alternative ways for the elephants in Thailand to bring in money for the local village whilst maintaining healthy lives. This will ensure their long-term conservation and survival. It's a completely sustainable project and they're in dire need of volunteers! I'm keen to contribute and anything would help out !

Here's the link to my gofundme page:

Thank you.
